Application No. 10/561,756 2 Docket No.: H0664.70032US00

Amendment dated April 7, 2010 After Final Office Action of December 7, 2009

## AMENDMENTS TO THE CLAIMS

Please replace all prior versions, and listings, of claims in the application with the following list of claims:

1-13. (Canceled)

14. (Currently amended) A method for treating a mood disorder in a human patient, which comprises administering to a patient in need thereof a therapeutically effective amount of one or more of the eannabinoids cannabichromene (CBC) and/or-cannabichromene propyl-analogue (CBC-VA)

wherein the CBC and/or CBC-V is substantially pure or is an extract from a cannabis plant that contains greater than or equal to 30% CBC and/or CBC-V of the total cannabinoid content, and wherein the mood disorder is morbid or clinical depression, unipolar mood disorder, bipolar mood disorder, syndromal depression, panic disorder or anxiety.

15.-17. (Canceled)

- (Currently amended) The method according to claim 14 wherein the one-or more eannabinoids <u>CBC</u> is present in an extract of at least one cannabis plant.
- 19. (Currently amended) The method according to claim 14, wherein the empound or the emposition <u>CBC</u> is administered nasally, sublingually, buccally, topically, orally, rectally, intravenously, intra-peritoneally, intra-muscularly, subcutaneously, transdermally, intra-vaginally, intra-urethrally, by nebuliser, as inhaled vapour or by installation directly into the bladder.

20.-24. (Canceled)

25. (Previously presented) The method according to claim 18, wherein the extract comprises substantially all the naturally occurring cannabinoids in said at least one cannabis plant.

3 Docket No.: H0664.70032US00

Application No. 10/561,756 Amendment dated April 7, 2010 After Final Office Action of December 7, 2009

- (Currently amended) The method according to claim 18, wherein the extract is enriched for CBC and/or CBC. V.
- 27. (Currently amended) The method according to claim 14, wherein the <u>CBC</u> eompound is administered in an isolated and substantially pure form.
- (Currently amended) The method according to claim 14, wherein the <u>CBC</u> compound is administered together with one or more pharmaceutically acceptable diluents, excipients or carriers.
